- Tetanus
- Holt-Oram Syndrome
- Fantle eosinophilic gastritis
- Rett syndrome
- Cyclic Vomiting
- Epidermolysis bullosa
- Hypertrophic cardiomyopathy
- Survivor of homozygous alpha-thalassemia
- Bernard Soulier syndrome
- Fragile X
- Mitochondrial Disorders
- Galactoderma
der-Willi syndrome
- Optiz syndrome
- Nephrogenic Diabetes Insipidus
- Nephrotic Syndrome
- Osteogenesis imperfecta
- Hepatitis B
- Glycogen Storage Disease
- Wilson’s Disease
- Hereditary Fructose Intolerance
- Chronic’s Disease
- Patients status post liver and kidney transplants
- Fibrous Hamartoma of Infancy
- Conversion Disorder
- Stickler Syndrome
- Alexander Disease
- Rat-Bite Fever
- Biliary Atresia
- Neurofibromatosis
- Transverse Myelitis
- Near drowning
- Pulmonary Muscular Atrophy
- Smith-McGinnis syndrome
- Cystic Fibrosis
- Incontinence Pigmenti
- Blastomycosis
- Lyme Disease
- Kawasaki Disease
- Asthma
- Infantile Spasms
- Hypoxic Brain Injury
- Henoch-Schönlein purpura
- rebral Palsy
- Vesicoureteral Reflux
- Juvenile Rheumatoid Arthritis
- Pyloric Stenosis
- Fetal Alcohol Syndrome
- Alopecia
- Anaphylactic Reaction
- Acute Lymphoblastic Leukemia
- Angioedema
- Cleft Lip and Palate
- MRSA Infections
- Pseudomonas Syphilis
- ADHD
- Pervasive Developmental Disorder
- DiGeorge syndrome
- Congenital Heart Failure
- Wilms Tumor
- Down Syndrome
- Pancreatitis
- Pulmonary Embolism
- Pediatric Trauma
- Campylobacter gastroenteritis
- Gianotti-Cro pothymia
- Endocardial Cushion Defects
- Allergic Rhinitis
- Acute Poststreptococcal Glomerulonephritis
- Herpetic owth Hormone Deficiency
- Precocious Puberty
- Migraine
- Helicobacter pylori
- Ulcerative Colitis

Patient Diversity

The majority of patients in central Wisconsin are of European descent, yet we serve an increasingly diverse population, including:

- Amish and Mennonite
- Hmong
- Latinos
- Native American
- African American
- Recent immigrants from all over the world!
Outstanding Clinical Experience

Follow your own patients in your continuity clinic

Average 5-6 inpatients/resident on Wards

Outstanding NICU and PICU experience

Multispecialty clinics including:

- Cystic Fibrosis Clinic
- Spina Bifida Clinic
- Cleft Lip and Palate Clinic
- Child Neurodiagnostic Clinic
Our excellent resident to teaching staff ratio means we focus on one-on-one teaching.
Hands-on Training

No fellows: you get the procedures
State-of-the-art simulation lab
NALS, PALS, NRP, STABLE, and ATLS training
Specialized Services for Children

Accredited Children’s Hospital

Ministry Saint Joseph’s Children’s is one of only three Children’s Hospitals in the state

Child Life Services

Children’s Miracle Network

Child Advocacy Center
Award Winning, Cutting Edge Health Care

State of the art electronic medical records

“To visit the Marshfield Clinic, a longtime innovator in health information technology, is to glimpse medicine’s digital future”  NY Times, Dec 2008

“Most Wired” designation by American Hospital Association

Top 25 “connected health care facilities”

Nationally Recognized for High Quality, Coordinated Care

“Marshfield Clinic Saves Medicare Millions While Improving Quality Of Care”  Medical News Today, Aug 2009
Exposure to world class research

The Marshfield Clinic Research Foundation includes centers for Clinical Research, Epidemiology, Biomedical Informatics, Human Genetics, National Farm Medicine.
In 2008, the center received a five-year, $4.6 million competitive grant to expand its initiatives related to injury prevention on farms. The project period runs through September 2013.
Marshfield Clinic Research Foundation
Center for Human Genetics
Personalized Medicine Project

In 2002 the Center launched what is now the largest population-based genetic research project in the United States, involving more than 18,000 central Wisconsin residents.
Preparation for practice or fellowship!

Fellowships/Practice Locations of Most Recent Graduates:
Year 2010-11
  - **Primary care practices** in Minnesota and Alaska
  - **Hospitalist practice** at Marshfield Clinic/St Joseph’s Hospital
Year 2009-10
  - **Pediatric Hematology Oncology** Fellowship Washington DC
  - Non operative **Orthopedic/sports medicine** fellowship at Marshfield Clinic
  - **Primary care** in Lake Geneva, Wisconsin
Preparation for Practice or Fellowship: Former Graduates

Year of 2008/09
- All graduates chose primary care and joined *private practices* in Wisconsin, Kentucky, and California

Year of 2007/08
- University of Detroit: Pediatric *ER* fellowship
- Marshfield Clinic: *General pediatric* faculty
- University of East Carolina: *General pediatric* faculty

Year of 2006/07
- University of Texas Galveston: Pediatric *Infectious Diseases* fellowship
- Tufts University, Boston Medical Center: *Neonatology* fellowship
- University of Kentucky Lexington: *Adolescent medicine* faculty
- St Mary’s Duluth Clinic: *Hospitalist* faculty

Year of 2005/06
- University of California San Diego: *Cardiology* fellowship
- Kokomo, IN: *General pediatric* practice
- Mayo Clinic Jacksonville: Pediatric *Neurology* fellowship
- Children’s Hosp New Orleans: *Hem/Onc* fellowship
Examples of Resident Research and Advocacy Projects

Incidence of Eosinophilic Esophagitis in MESA
Rajesh Kethireddy, MD, Medicine/Pediatrics

A Pilot Project to Promote Early Literacy
Olga Rudnik, MD, Pediatrics

Incidence and Description of Anaplasmosis
Raza Bajwa, MD, Pediatrics

Rapunzel Syndrome in a 5 Year-Old.
Veena Gonuguntla, MD, Pediatrics

Antibiotic Lock versus Systemic Antibiotics: A Literature Review.
Ewelina Mamcarz, MD, Pediatrics

A Public Awareness Campaign about Insulin Dependent Diabetes.
Jacob Lonsdale, MD, Pediatrics
Examples of Resident Projects

Natural History of Idiopathic Neonatal Hypertension and the Long Term End Organ Effects in Children with Neonatal Hypertension. Rahul Kaila, MD

Do Clinicians Document the AAP Recommended Clinical Information Used to Diagnose and Manage Otitis Media with Effusion? Stella Kalu, MD

Defining Services and Referral Patterns for Infants with Positional Plagiocephaly within the Marshfield Clinic System. Keith Pulvermacher, MD

Case Report of Caustic Ingestion. Ghiath Al-Kassar, MD, Pediatrics

Methamphetamines and Child Maltreatment. Sushma Thappeta, MD, Pediatrics

The Ideal Pediatrician: Study of Parent Expectations versus Reality at the Pediatric Resident Continuity Clinic at Marshfield Clinic. Sushma Thappeta, MD, Pediatrics
Employment Perks

- $1,750/year educational fund
- $1,100/year meal card
- Lodging stipend for house hunting
- $2,500 moving expenses
- Up to 10k/resident available for research
- Convertible laptop
- Free parking
- Retirement benefits
- Competitive salary
- Low cost of living compared to urban academic centers
Resident Support and Social Activities

Mentoring Program
Resident Association
Resident Well-Being Committee
Resident retreats
Sleigh riding and kayaking events
Quarterly resident socials
A word about our community

**Affordable housing**

**No traffic**

**Safe**

**Excellent school system**: Marshfield #2 in the state 2008

**Day care for employees’ children on site**

**Concert-in-park**

**Farmer’s Market**

**State-of-the-art YMCA**

**Zoo**

**Biking and x-country skiing trails**

**2.5 hour drive from Madison or Minneapolis**
Experienced Faculty

Marshfield Clinic attracts faculty from all over the US, who have trained at some of the nation’s most prestigious medical colleges and universities.
An introduction to some of our faculty

Dr Kathy Finta, Pediatric Cardiology, John Hopkins School of Medicine, Residency at Baylor College of Medicine, Fellowship in Ann Arbor, Michigan

Dr Michael McManus, Pediatric Hematology Oncology, Georgetown University School of Medicine, residency at Mass Memorial, fellowship at Mayo

Dr Todd Stewart, Pediatric Intensivist, medical school and residency at Rush University, fellowship at Children's Memorial in Chicago

Dr Brad Sullivan, Pediatric Infectious Disease, medical school at Tufts University, residency in Vermont, fellowship at Mayo, PhD at Dartmouth

Dr Amy Herbst, medical school and residency at The University of Wisconsin, Madison

Dr Keith Pulvermacher, medical school at Medical College of Milwaukee, residency at Marshfield Clinic

Dr Alayne Van Erem, Behavior/Development Specialist, University of North Dakota, residency at Georgetown University, fellowship at the Children Center in Oakland

Dr Jody Gross, Neonatologist, medical school at the University of California, Residency and fellowship at Baylor College of Medicine

Dr Suzanne Wright, Baylor College of Medicine, residency at Primary Children's in Utah
Our commitment to you

Help you develop into a the best pediatrician you can be
Prepare you for the job or fellowship of your choice
Support your well being as a unique individual
Welcome you into our family of caring and dedicated physicians
Welcome!

We look forward to meeting you

Dr. Suzanne Wright
Pediatric Program Director

Dr. Kathy Finta

Dr. Elizabeth Hilbelink

Dr. Afshan Chaudhry

Pediatric Key Faculty
